

Minleon's Smart Dimmer

...an RGB 'look' without the RGB cost!

New
for 2017!

A simple yet powerful commercial-grade multi-port dimmer, connecting Minleon's non-RGB dimmable light strings & retrofits (C7s, C9s & all styles of our mini-lights), with pre-programmed, sequenced effects via remote control.

Features

- 120VAC dimming board
- 12 built-in dimming effects such as chase, twinkle & glow
- Speed, intensity, trails & direction control
- 5 channels / 100w max per output/channel
- Run up to 1260 Minleon Mini-Lights per Smart Dimmer (when using 70L, 5.3W strands)
- Link 10 Smart Dimmers to a controller & increase your channel count to 50
- Outdoor rated
- Memory settings
- Record function
- IR remote control
- Dimming curve settings

Uses

- Wire frames
- Signs
- Christmas Trees
- Garden & yard decor
- Retail storefront
- Perimeter lighting

Advanced Features

- Bypass controller with DMX software (coming soon)
